Cookies, Web Beacons and IP Addresses

Scoprire uses commonly used information-gathering tools, such as cookies and Web beacons, to collect information as you navigate the Company’s Web sites (“Web Site Navigational Information”).

Web Beacons

Scoprire may use Web beacons alone or in conjunction with cookies to compile information about Customers and Visitors’ usage of the Company’s Web sites and interaction with emails from the Company. Web beacons are clear electronic images that can recognize certain types of information on your computer, such as cookies, when you viewed a particular Web site tied to the Web beacon, and a description of a Web site tied to the Web beacon. For example, Scoprire may place Web beacons in marketing emails that notify the Company when you click on a link in the email that directs you to one of the Company’s Web sites. Scoprire may use Web beacons to operate and improve the Company’s Web sites and email communications.

IP Addresses

When you visit Scoprire’s Web sites, the Company collects your Internet Protocol (“IP”) addresses to track and aggregate non-personal information. For example, Scoprire uses IP addresses to monitor the regions from which Customers and Visitors navigate the Company’s Web sites.

Social Media Features

The Company’s Web sites may use social media features, such as the Facebook ‘like’ button (“Social Media Features”). These features may collect your IP address and which page you are visiting on the Company’s Web site, and may set a cookie to enable the feature to function properly. You may be given the option by such Social Media Features to post information about your activities on the Company’s Web site to a profile page of yours that is provided by a third party Social Media network in order to share with others within your network. Social Media Features are either hosted by a third party or hosted directly on the Company’s Web site. Your interactions with these features are governed by the privacy policy of the company providing the relevant Social Media Features.

Scoprire may share Data about Scoprire Visitors and Customers with the Company’s contracted service providers so that these service providers can provide services on our behalf. Without limiting the foregoing, Scoprire may also share Data about Scoprire Visitors and Customers with the Company’s service providers to ensure the quality of information provided, and with third-party social networking and media Web sites, such as Facebook, for marketing and advertising on those Web sites.
